Never did a political party in Paducah ask for the votes of the people on municipal issues with a better ticket to fight for and a clearer record to point to, than the Republican party of Paducah now has.

It is a noticeable fact that the Democrats of Paducah are strangely silent on the record their party has made in the past in municipal management of affairs. The Democrats are relying solely on being able to whip all Democrats, of whatever belief on the financial question, into line. This policy may have worked in the past, but it won't do so now.

Our Democratic friends must not be put out if Mr. Bryan wears diamonds. The Council Bluffs Nonpareil, in a recent discussion of Mr. Bryan's visit to that city, said: "In his short front sparkled a handsome diamond," and sundry editors have been pecking away at Mr. Bryan ever since because of the fact. But why should not Mr. Bryan wear diamonds? He lived in the village at which he spoke during the campaign, wrote a book immediately afterwards, which he got widely advertised gratis, is in constant demand for newspaper articles for which publishers are willing to pay high prices, and now places a tariff of \$1,500 apiece on his speeches, riding on freepasses to deliver them. William is "working" his presidential candidacy from a financial standpoint with great success. Why, then, should the carrying editors find fault if he does wear diamonds.

The Republicans have nothing to be discouraged about as regards the registration. Paducah is no exception: all cities in the state have had the same experience. The custom of the two parties served to bring about the result. The Democratic party

A GREAT VOTE-GETTING SPEECH.

The Fight Is On.

The bigger the battle the harder must be the work of every soldier.

The results of the registration should not be discouraging to the Republicans of Paducah. The prize to be won is just as great and the great end to be attained is just as important as it would have been had the results of the registration been more encouraging than they are. The interests of the people of Paducah are still at stake. We have no guarantee that the Democrats would improve any should they be intrusted again with the control of municipal affairs. The record made by our present council is a flattering one and when it is considered that the council has been greatly handicapped by the opposition of a mugwump mayor, the Republican record is indeed remarkable.

There are many reasons for this apparently unfavorable registration.

Upon the old-fashioned political lines Paducah would still be a Democratic city. Large numbers of Democrats who are strong adherents to a sound financial currency, are still registering as Democrats.

These Democrats did not vote last year for Bryan, but still believing that the grand old-fashioned party may yet be rescued from the hand of political guerillas and reckless demagogues who are now on top in the party's councils, these Democrats prefer to register as Democrats and be in a position to reform their party when the opportunity offers.

Hence we have the same right to look for a large number of sound money Democrats to vote for the Republican ticket, and a good business administration of municipal affairs as we had last year to expect such a large majority for McKinley in Paducah.

The registration returns also show a large non-committal or independent vote. There is no question but that the largest part of that vote will go to the republican ticket in this city. Events in the past have amply proved that the independent vote will largely be cast for the party that represents sound money, prosperous times and honest city government.

It is true that the republicans would have been glad to have the apparent democratic majority some smaller. But far from being any cause for discouragement, it is only a cause for harder work on the part of all republicans.

The fight is now on in dead earnest. The Republicans know to a certain extent the amount of work that must be done. There should be no apathy on the part of any Republicans. It should be borne in mind that with the issue at it is there is no excuse for any Republican to bolt the ticket. The Republican party is not divided on a question of principle as is the Democratic party. Nothing mars the harmony of the occasion except possibly a slight discussion, which is purely local, and these little personal differences are no cause why any Republican should fail to do his full duty at the polls.

From now on every Republican should be a committee of one to see that victory is ours in November.

DISPATCHER'S OFFICE

May Be Moved Into the Old Master Mechanic's Office.

It is Now Being Seriously Contemplated by the Illinois Central.

The Illinois Central is considering the advisability of moving the dispatcher's office from Broadway and the intersection to the old office near the shops, occupied by the master mechanic previous to his removal to the new quarters. It has not yet been definitely decided what will be done, but it is not at all unlikely that the change will be made sometime in the near future.
